DECLARATION OF PRIOR INVENTION IN THE UNITED STATES TO OVERCOME
CITED REFERENCE (37 C.F.R. Sect. 1.131)

I, Devon A. Rolf, declare that:

1. I am the inventor of the invention(s) disclosed and claimed in United States Patent Application Serial No. 09/635,835, filed August 10, 2000, and entitled A Device, System and Method for Making Transactions Via a Communications Link (hereafter "Patent Application"), which claims priority of a provisional patent application having serial number 60/147,987, filed August 10, 1999 (hereafter "Provisional Application").
2. I have reviewed United States Patent No. 6,434,403 to Ausems et al., filed on February 19, 1999 and issued on August 13, 2002, entitled personal Digital Assistant with Wireless Telephone (hereafter "Antedated Reference") which is being relied upon in a rejection of the claims in the Patent Application.
3. I conceived of the invention(s) claimed in the Subject Application before February 19, 1999, which is earliest filing date of the Antedated Reference (hereafter "Effective Date of the Antedated Reference").
4. I filed the Provisional Application, thereby reducing the claimed invention(s) to practice, on August 10, 1999, which is the earliest filing date of the Patent Application.
5. On information and belief, I was duly diligent from prior to said Effective Date of the

Antedated Reference to the filing of the Provisional Application.

FACTS AND DOCUMENTARY EVIDENCE

6. On February 5, 1999, prior to the Effective Date of the Antedated Reference, I filed a service mark application in the United States Patent and Trademark Office for the mark "JADLOW COMMUNICATIONS COMPANY, L.C." (hereafter "Trademark Application"). The Trademark Application recites a variety of services to be used with the service mark including, but not limited to, services associated with at least one of the invention(s) set forth in the Patent Application, namely, "facilitating the transaction of retail sales made over a communications network".
7. On February 8, 1999, prior to the Effective Date of the Antedated Reference, I organized Jadow Communications Company, L.C., as a limited liability company in the State of Missouri, for the purposes of developing, holding and licensing intellectual property. Attached as Exhibit A is a copy of the Articles of Organization for Jadow Communications Company, L.C.. Attached as Exhibit B is a copy of the Certificate of Organization of Jadow Communications Company, L.C.
8. The intellectual property developed and held by Jadow Communications Company, L.C. includes the intellectual property set forth in the Patent Application, which has been assigned to Jadow Limited (Reel/Frame No. _____), whose name was changed from the said Jadow Communications Company, L.C. (recordation not yet received from PTO)
9. Between a time from before the Effective Date of the Antedated Reference and the filing date of the Provisional Application, I worked on researching the invention(s) disclosed in the Patent Application and on preparing the Provisional Application. During this time, I was engaged in a full-time professional career unrelated to the present matter and worked on this matter in my spare time.
10. In view of the foregoing, it is believed that the invention(s) disclosed and claimed in the Patent Application were conceived prior to February 19, 1999, the Effective Date of the Antedated Reference, and that due diligence was exercised from before that Effective Date to August 10, 1999, the date of reduction to practice of the invention(s) and the filing date of the Provisional Application to which the Patent Application claims priority.

As a person signing below, I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like are punishable by fine or imprisonment, or both, under Section 1001 Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application and any patent issued thereon.
